Claims 1-20 are allowed over the prior art of record and in light of applicant's arguments.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose a system that detects states by calculating a maximum base count for entries in a defined registry segment in an internal registry in the client computer unit, and wherein a client application detects states in the client computer by detecting a modification of registry configuration data in the internal registry in the client computer unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
